HOUSE.

WASHINGTON, March 29.—Mr Springer took the chair when the house went into committee of the whole on the army appropriation bill. Mr. Stephens argued that public sentiment was against the employment of troops at the polls There was no need for such a thing for the country It had got along without it for three quarters of a century. There would be no harm done therefore by the repeal of the law The chairman finally overruled the point made by Mr Reagan, and held that the section was germain An appeal was taken and the decision sustained, 125 to 107 A general discussion was then opened by Mr. Garfield, the agreement being no vote to be taken to-day.

Mr. Garfield argued against the policy of the democratic party in congress declaring it to be utterly revolutionary and tending to the subversion of the government if the pending proposition was the simplest and most ineffective, still when it was demanded by coercion it had to be resisted. It was not against the proposition itself but against the democratic methods he spoke. And what was the law on the repeal of which the democrats now insisted? It was a law proposed by the democratic senator, Powell of Ky, reported against by a republican committee and passed in both houses by a majority of democratic votes He named as voting for it Senators Hendricks, Davis of Ky., Johnson of Md, McDowell of Cal, and among the democratic representatives, Randall of Pa, Wood of N Y, and Pendleton of Ohio. We pick up the gage of battle which has been thrown and will appeal to our common sovereign, the people, to say whether you shall break down the principle of free consent in legislation at the price of starving the government to death. We are ready to pass these bills for the support of the government at any hour, when you will offer them in the ordinary way, and if you offer those other measures as separate measures we will meet you in a spirit of fair and fraternal debate, but you shall not compel us, you shall not coerce even to save this government until the question has gone to the sovereign to determin whether they will consent to break down any of its voluntary powers, and on that ground we plant ourselves.

A long political discussion followed in which Messrs. Wood, Sparks and White were participants

The debate will be resumed on Tuesday, Mr Belford, of Colorado, having the floor Before adjournment the speaker announced the appointment of the Cincinnati committee, McMahon having declined to act, as Carlisle, Kenner, New, Sanford, Conger Brown, and Robinson of Massachusetts

GENERAL NEWS.

Jefferson Davis

BOSTON, Mass, March 29.—Jefferson Davis, in an interview, says the war of the rebellion was one of those things which was sure to come in the progress of events, and in solving the great problems of the governments upon this continent he accepted the arbitrament of the sword. He was very hopeful of the future of the country The only disturbing elements he discovered now were the efforts of the extremists upon both sides to keep alive the animosities and hatred of the past If congress would pursue a moderate course and attend to its legitimate duties of general legislation for the good of the whole country, all the great social and industrial questions, which, even now, were the source of so much contention, would soon settle themselves and the country be at peace

Death in the Flames

CLAREMONT, N H, March 29.—The Fremont House burned early this morning, and five persons perished. Mrs Hannah P Gibson, of Chester, Vt, mother of one of the proprietors, Charles Morgan, a boarder, Lydia Merrill, table girl, Anna Johnson, chambermaid, Mrs S A. Place cook, William Butler, of Brattleboro, Vt, and Frederick Morvin and wife were severely injured by jumping from the windows

Nominations

TOLEDO, O, March 29.—The democrats have renominated W W E Jones, the present incumbent, for Mayor

PROVIDENCE R I, March 29.—The Union Greenback Labor state convention nominated Samuel Hill for Governor For Lieut. Governor David McKay, secretary of state, John Francis Smith, attorney general, Herbert B Wood, treasurer, Andrew B Moore

CLEVELAND, O, March 29.—The city republican convention to-day nominated R R Herrick for mayor Sylvester I. Everett was unanimously re-nominated for t[illegible]ler.

Fires.

JACKSONVILLE, Ill, March 29.—A fire this evening destroyed a portion of the Deaf and Dumb Asylum, but the speedy appearance of the fire department checked the flames The inmates were badly scared but none injured The fire caught on the roof of the repairer's stove

MILWAUKEE, Wis, March 29.—A fire at Madison, Wisconsin, this noon destroyed two upper stories of the Fairchild block Loss on building $15,000 Other losses $10,000 During its progress three separate explosions occurred, throwing firemen and others down the stairway to the street The second explosion caused the rear wall of the building to fall. Seventeen persons were more or less severely burned Three others considered in a dangerous condition and will probably die The fire was first discovered in the third story Its origin is a mystery, but it is supposed to be incendiary It is also suspected that something of an explosive nature was placed in the floor and ceiling in the third story for the purpose of causing the destruction of the entire block The building was owned by the Fairchild estate Rowley & Co, furnishing goods, C A Damon, tailor, McConnell & Smith, stationers, S. Kluber, clothier, were occupants of the building Their losses principally from water and removal of goods are fully covered by insurance

Crops

CINCINNATI, O, March 29.—The *Enquirer* publishes this morning careful estimates of the wheat and fruit crops from nearly every county in Ohio, Indiana and Kentucky, from which it is indicated that the wheat crop will be bounteous, but a very poor prospect for peaches and apples

A Court House in Flames.

CINCINNATI, March 29 The Licking county Ohio, court house, a handsome structure with four fronts, standing on the centre of the square at Newark, and just finished at a cost of $200,000, caught fire in the cupola from a gas jet used to illuminate the clock at 12 o'clock, and has burned down to the second story. It will probably be totally destroyed. Assistance from the Columbus department is momentarily expected The insurance is but $20,000

COLUMBUS, March 29.—Two engines have been sent to Newark from this point A special to the Evening Dispatch just received, states that the fire in the court house has destroyed the third and is now burning the 2nd story Nearly all of the important county records are safe. The militia are on duty guarding the county property. Great excitement prevails among the citizens and a large number of country people who are stopping in town. There is hope now that the most valuable portion of the building can be saved. It is now supposed the fire communicated from a defective flue. A boy named Kramer, and a man named Smythe, were badly injured by falling timber

Suicide of a Congressman

NASHVILLE Tenn March 29.—A Lebanon special to the *American*, says, ex Congressman H Y Riddle, suicided to-day by shooting himself through the head with a 5 30 pistol, during temporary aberration.

The state senate to-day concurred in the house amendment bill, to compromise the state debt at 50 cents, with 4 per cent. interest, to be submitted to the people for ratification, if the bondholders accept the proposition

San Francisco.

SAN FRANCISCO, Cal March 29.—A. Rowan & Co., booksellers and publishers, have made an assignment.

The suspension of James L King & Co, stock brokers, is announced. Cause, a break in the Union and Sierra Nevada stocks

King Kalakua, of the Hiawaii, has knighted Claus Spreckler, of this city, for his services in developing the resources of the Hiawaiian Islands.

The Chinese Immigration

SAN FRANCISCO, March 29 The Bulletin this evening publishes an interview with Gen W C Legendre, formerly U S consul in the Amoy district, China, in which he takes the ground that most of the Chinese emigrants to the United States come under contracts made with emigration brokers in evasion of the regulations of the Chinese authorities for the suppression of the coolie traffic, that to limit such immigration, which comes almost entirely through Hong Kong, it is necessary simply to control the operations of the Chinese emigration houses therein, for which the British authorities would undoubtedly lend their aid, and that a revision of the Burlingame treaty is not necessarily involved in stopping such emigration He draws a strong picture of the nefarious practice of the Chinese emigration brokers, whom he considers little better than kidnappers.

FOREIGN.

Murder Most Foul

LONDON, March 29. A box containing small fragments of human remains, each piece wrapped in coarse brown paper, was fished up from the Thames The mutilated remains have been recognized as those of a Mrs. Thomas, who lived alone near Richmond. The supposed murderess, Catharine Webb, alias Lawler, was Mrs. Thomas' servant It is believed she made away with the identifiable parts, threw the rest into the Thames, then sold the contents of the house and went home to Ireland, where she was arrested

Paris has 1,191 daily weekly monthly, and quarterly publications New York has only 450 or less than half as many

Among the democratic members of the House is Barney O Reiley who deserted from the Union army during the war because he did not get a commission On the whole we think the confederate brigadier is preferable to such democrats

The southern monopoly and the northern pool are now negotiating for a combination by which the former shall have exclusive control of the southern trade and the latter of the northern This is the kind of competition which the *Tribune* talks of as resulting from the present rail road situation.

What we need in this state is independent local roads which are solely interested in the development of the resources of our state. A Kansas corporation, if it controls Colorado roads, will be more interested in sending Kansas and eastern produce and manufactures into our markets than in distributing the produce raised along its feeding line in Colorado.

The cause of the removal of Mr. Oakes has at length come out. It appears that he was an obstacle in the way of a combination between the northern pool and the southern monopoly looking to a division of Colorado business The Atchison road st... to the U. P road that it would open negotiations for this purpose as soon as Mr. Oakes was removed. Accordingly he was removed and negotiations have been commenced

There is a law which says no U. S senator or representative shall be paid for the time he is absent from sessions unless on account of illness, and the secretary of the senate and the sergeant-at-arms of the house are directed to make the necessary deductions. In violation of this law Senator Sharon has been paid his salary regularly. It strikes us that Secretary Gorham is culpable for this wrong, and it shows that he should have attended more to his own duties and short comings than to those of the administration.

One of the results of the liberal policy of the Atchison road is the restoration of the freight on corn to the price it was six years ago when the business was not a quarter of what it is now and running expenses were fifty per cent more When there was competition last year the freight rate on corn to Colorado Springs was $60 per car load of 20,000 pounds. This has now been raised to $130 per car load We don't say but that the freight rates were too low last year, but there was no justice in restoring them to the ... arily high rates of six years ago

Three copies of the Colorado Springs GAZETTE came crowding upon us last night and all of them full of questions One of the questions we will answer immediately for the benefit of our esteemed cotemporary down the road The *Tribune's* opinion upon Senate bill number 62 has not changed in the slightest and it is more than ever anxious to see the question tested in the courts *Tribune, March 20*

Thank you Now will you please tell us what you think of a corporation that stoops to such corrupt practices to gain its ends?

The Constitutional convention of California has adjourned and the Sacramento *Union* sums its work as follows 'After having been in session 157 days, and after having incurred liabilities amounting to more than $150,000 beyond the sum appropriated for its use, it has completed a constitution which the people of California will be compelled, if they consult their own interests, to repudiate The work of the convention has been prolonged chiefly through the incapacity of the delegates ' In the bill of rights Chinamen and embezzlers only are denied the rights of citizenship The following summary is given of the sections concerning the Chinese 'The article on the subject of the Chinese has four sections They are not long but they cover the ground and ... close ... may do ... In the first place they are ... general terms declared to be a dangerous nuisance which the legislature may abate in every way possible. It is next declared that they shall not be employed, directly or indirectly by any corporation organized or to be organized under the laws of the state next that they are not to be employed on public works of any kind, except in punishment of crime, lastly, that their immigration into the state shall be discouraged by law that all contracts for coolie labor are void, that companies formed for importing Chinese may be subject to any penalties the legislature may see fit to inflict, and that the legislature shall delegate all power to municipalities to remove Chinese from their limits or confine them to designated quarters within the limits.'

A MINING CODE

Messrs Richards & Co, of Denver, have just published a "Mining Code," prepared by Mr ... Carpenter It is the most complete book of the kind published The author or compiler has had a large experience as a mining attorney and besides is a man of good ability The book contains only the existing mining laws the repealed laws being omitted to avoid confusion All the important mining decisions, both state and United States are given In it one may read full directions how to obtain a claim lode or placer, form a company &c, &c There is also a chapter on agricultural lands with instructions how to pre empt public lands. At the close is an interesting chapter giving definitions to mining terms The book in fact is indispensable to prospectors settlers and to any who are in any way interested in mining We cheerfully commend the book and trust it will have an extensive circulation

The *Globe Democrat* is receiving many letters endorsing the ticket, Grant and Teller for 1880 Though we cannot fully endorse the first part of the ticket we do most assuredly endorse the latter part The following is one of the many letters which the *Globe Democrat* has published on this subject

To the Editor of the Globe Democrat

LEAVENWORTH KANSAS March 18—Not long since in reading your paper one of the best in the country politically it has no superior I saw an article headed 'Booming for Grant and Teller That ticket will meet my approbation That General Grant is going to be the next candidate there is little doubt as the natural course of events points to and is working that way In regard to Senator Teller he has, in the short space of his public career, been placed in the front rank of his party and made for himself a national reputation With such a ticket no doubt a great many northern democrats would support it, in preference to Samuel J Tilden in the interest of the southern wing of that party or rather the whole bird itself except the tail We say throw it forward and the American people will ... stand by the old flag

CONQUERED AT LAST

A Prize Poem on the Gratitude of the South for Northen Help

Some time since the Mobile *News* offered a prize for the poem which by a Southern writer, should be judged most meritorious, expressive of the gratitude which existed in the southern heart towards the people of the North for the philanthrophy and magnanimity so freely and nobly displayed in the time of the dire affliction of the South by pestilence. This offer on the part of the *News* called forth seventy seven competitive compositions from various parts of the country The committee to whom the manuscripts were submitted decided in favor of the poem entitled "Conquered at Last," by Miss Maria L Eve of Augusta Ga., which is here given

You came to us once O brothers in wrath
And rude desolation followed your path

You conquered us then, but only in part
For a stubborn thing is the human heart

So the mad wind blows in his might and main,
And the forests bend to his breath like grain,

Their heads in the dust and their branches broke,
But how shall he soften their hearts of oak?

You swept o er our land like the whirlwind s wing,
But the human heart is a stubborn thing

We laid down our arms we yielded our will
But our heart of hearts was unconquered still

"We are vanquished, we said, "but our wounds must heal,
We gave you our swords, but our hearts were steel

"We are conquered, we said, but our hearts were sore,
And "woe to the conquerer at every door

But the spoiler came and he would not spare,
The angel that walketh in darkness was there

He walked thro the valley, walked thro the street
And he left the print of his fiery feet

In the dead, dead, dead, that were everywhere,
And buried away with never a prayer

From the desolate land, from its very heart
There went forth a cry to the uttermost part,-

Ye heard it, O brothers - With never a measure
You opened your hearts and poured out your treasure

O Sisters of Mercy, you gave all we these'
For you helped, we know, on your bended knees

Your pity was human but oh it was more
When you shared our cross and our burden bore

And no greater love hath a man to give
Than lay down his life that his friends may live

You poured in our wounds the oil and the wine
That you brought to us from a Hard Divine

You conquered us, brothers, our swords we gave;
We yield now our hearts, they are all we have

Our last ditch was there, and it held out long:
It is yours, O friends and you ll find it strong

Your love had a magic, diviner than art,
And "Conquered by Kindness" we ll write on our heart

Pizun and Ki-Nine

She wasn t after hair dye, cosmetics, scented soaps or any of those gimcracks but when the druggist had finished putting up a prescription to cure a long faced boy of a hacking cough she turned from the stove and asked

"Do you keep drugs and medicines and pizuns and so on ?

"Oh, yes we keep all such things

And ki-nine ?

Yes we have quinine

"Well, I called in to see about gettin' some pizun and ki-nine, but I dunno So many folks have been slaughtered by druggists mistakes that I m eanemost afraid to ask for camfur gum, tho I suppose I can smell camfur gum farther off than any other woman in Michigan Have you ever killed anybody by putting up morphine for bakin powder ?

"Never.

"Been in the business long ?

'Only twenty-one years.

"Well, you otter know gum Rabic from sweet oil by this time, but some men are awful keerless I ve had a brother pisuned by wrong medicine, and I m a little shaky Where is your ki nine ?

'This is it,' he replied as he took down the jar

She wet her finger, pushed it into the jar and then rubbed it on her tongue

"Tastes like it, but I dunno Sure that ain t morphine ?

"Yes, very sure

"Sure your clerk washed the jar out clean afore he put the ki nine in ?

'Oh, I washed it myself

'If this shouldn t be ki nine you d have the law put to you the worst kind We ve got money in the bank, and we d never settle for no $10 000 '

'I know it to be quinine

'Well, then, gimme 15 cents worth and I want down weight, too If I m treated well I m a great hand to trade at one place, but the minnit I see any stinginess or cheatin a yoke of oxen couldn t pull me into that store again

He weighed out the drug, labelled it with great care and then she said

'Now I want ten cents worth of pizen to kill rats.'

What kind

Why, the pizen kind of course Pizun is pizun the world over Don t seem as you were used to handling them

'Do you want arsenic?

Certainly, but you want to be powerful keerful! I m a woman of fifty and I ve nussed the sick ever since I was a girl but I never handle pizun without a chill creepin up my back Where is it

He handed down the jar and she smelt the stopper, shook her head, turned the jar around and whispered

That looks a powerful sight like cream a tarter

'Oh, no—that s arsenic, and no mistake

'Well, I ve got to take the chances I s pose I ll take 10 cents' worth—down weight Any one who will be stingy sellin' pizun will be stingy in other things and I do hate a stingy person. My first husband was powerful stingy, and he was struck by lightnin .'

When the poison had been weighed and labelled he carefully tied up the package and said

Now then write on the three to be kept in the old character at on the third shelf in the pantry and that it s for rats Then write on the ki nine that it s to be kept in the coffee pot in the cupboard and that it s for chill

The druggist followed orders and the old lady put the pizun in her pocket and the ki nine in her reticule, and went out saying,

It may be all right but I dunno If my old man is took off instead of the rats I ll begin a law suit next day after the funeral ? *Detroit Free Press*

The mayor informs us that all dogs found running at large without collars on their necks will be taken up and put in the pound where they will be kept for forty eight hours after which if not claimed they will be killed Parties who have lost dogs will be apt to find them in the pound as nearly a dozen had been put in yesterday afternoon

Advices from the Divide state that the stockman s joy, that cold weather and snow seem past is not altogether unalloyed with fear as it is anticipated by some that the rapidly coming spring grass may have a bad effect on cattle by weakening them and as many have not altogether regained their ancient strength this weakening may prove fatal in many cases This will be more especially the case where a cow has to suckle a young calf

Pure Water

Mr J. H Drinkwater the plumber, has just finished a most complete system of water works at Glen Lyrie the summer residence of Gen W J Palmer A dam was built across Queen s Canon just below the Punch Bowl making a reservoir from which pipes were laid a distance of half a mile to the house Into this hot and cold water apparatus has been placed The barn has also been amply provided and at three places throughout the grounds fountains have been erected which will add greatly to their beauty Altogether the general has as complete a system of water works even though they are on a small scale, as has ever been built in the West,

Mr Drinkwater has also introduced the city water into the Manitou House throughout A fountain was placed directly in front of the house and we understand it is the intention of the proprietors to make an excavation in front of the house about 30x60 which will form a small lake, upon which boats will be placed in the summer time for the use of the guests The hotel is being thoroughly renovated and prepared for the coming season. Mr Barker is a very popular landlord and the preparations which he is making will be sure to be appreciated this summer

OUR CHICAGO LETTER

The Leadville Fever Election Day Elevated Railways Communists The Theaters—Col Bob Ingersoll

Just now Colorado is exciting a great deal of interest here and a western fever has become epidemical The one supreme and all absorbing topic is Leadville its wonderful mines and the wealth which lies concealed in and about Stray Horse Gulch The *Tribune* here receives glowing descriptions from its special which describes the new mining region as an El Dorado which should allure seekers of wealth to its precious domains This is the Golden Fleece which the Argonauts of 79 are to enjoy possession of So Colorado ho is the watchword and emigration is tending toward the west Personally I have never doubted that the Centennial State surpassed any of her sister states in mineral wealth but this opinion is becoming so universal a one now a days that it excites no comment Chicago capital and brains will contribute their quota towards developing the industries of your state and the enterprise and confidence of the Garden City we hope will meet with its reward

Just now politicians are busy preparing for

ELECTION DAY

Which is just approaching and are button holing voters and glibly lying with the ease which only a ward politician can command The old rookery which is doing temporary duty as city hall until the new and elegant edifice is completed is a great lounging place for the unwashed and unterrified voters of the fence army I have coined this expression for it conveys the idea These voters stay on the fence until they are induced to get down, whereupon they vote democratic or republican as the influence suggests However the fence army ' are naturally in this city at least democratic by a large majority Opposite the City Hall is an unbroken block of saloons which do a thriving business The fence army patronize them when they are flush, and when broke subsist precariously on the free lunch counters and try generally unsuccessfully to get credit for drinks Splendid place for temperance work, for a speaker can secure a crowd to listen to him any day. Chicago is inspired with New York s success and wants an

ELEVATED RAILWAY

Two of em in fact The legislature have kindly incorporated the companies, and the public are waiting This city is nothing if not cosmopolitan and so it has a man milliner and dressmaker, whom rumor says does very well financially, and is laying up treasures of this earth, where we hope the bank officials will let it stay Have you had a dose of H M S Pinafore yet ? I hope not We have had seven companies who have represented it for us, and every troupe seemed worse than the other, except the last which was good It is a pretty little opera with many pleasing melodies and catching tunes which have proven popular For many years the

COMMUNISTS

have been the cause of considerable anxiety Their blatant leaders have mouthed incendiary speeches, boasted of their prowess, and plotted against government over stale beef and cheap tobacco and like the tobacco it ended in smoke But these Reds determined to give a celebration to commemorate the anniversary of the establishment of the Paris Commune in 1848 and 1871 This celebration took place March 22nd and 23rd in the Exposition building It is estimated that 25 000 people were present Deducting from this number the uncles, aunts and cousins female part of the crowd it would leave 15 000 men to represent the communistic element in case of any unpleasantness That is a pretty large proportion of the population eh ? Too large for ridicule As part of the programme the socialistic military companies gave a drill There were nearly 400 men in line and their evolutions showed careful training They carried Remington rifles and in equipment and discipline would compare favorably with our militia companies Perhaps future statesmen may consider socialism as seriously as the European leaders have perhaps

THE THEATERS

here have fallen into the custom of giving Sunday performances and we sometimes feel we are back in New Orleans or Frisco when the Sabbath rolls around upon us and we see the streets crowded with promenaders and hacks There are sacred concerts over at Turner Hall sacred to beer tobacco and Offenbach John McCullough presents Julius Caesar to a Sunday evening non church going crowd and melo-drama opera bouffe and variety come lagging after The result of this is that ministers complain of Sunday evening audiences, and Dr Sullivan whom the church could ill spare has gone to Canada because of lack of attendance and interest in the church Still I think notwithstanding our demoralization we are far ahead of other large cities in the matter of church attendance and observance of the Sabbath Not counting our suburb St Louis we can stand a most favorable comparison with any city of equal size in the Union (Dont let the printer put a small u in Union With a big c in Chicago it might look peculiar and hurt the Union, you know) Speaking of theatres reminds me of

COL BOB INGERSOLL

who lectured here Sunday night on ' Some Mistakes of Moses The lecturer is a favorite here and Haverly s theatre was crowded to its utmost capacity The *Tribune* called the lecture a deplorable exhibition of vanity and flippancy and the *Inter Ocean* is not hypocritical either Col Bob declares that humanity is the only religion To give you an idea of his style and manner of treating religious subjects I will give you two extracts from his lecture which are taken from short hand reports

The Jews had this manna for forty years no change in the bill of fare—when they might just as well have had three square meals a day No wonder they remembered the cucumbers the leeks the onions the garlic of Egypt and said Our soul abhorreth this light bread Just then God got mad —gods were always touchy and destroyed the complainers Was it reasonable to kill people for asking for a square meal once in forty years? Think of the man who wouldn t say after forty years of hash My soul abhorreth hash

In summarizing his belief Ingersoll said One world at a time is my doctrine Let each one make some one happy here Happiness is the interest of a decent action towards others and the more decent actions a man does the larger is his income

This last doctrine is better expressed by Tom Paine who said To do good is my religion

Well this has been a gossipy letter jumping from one theme to another with but little coherency of arrangement But there is the same peculiarity in life for the rich the gay the pure and impure the high and the low [illegible] along and touch elbows in the crowd of Vanity Fair and filthy rags jostle splendid silks My pen is tired perhaps your readers are Good night CONF

The prairie fire which has been raging for several days past east of this city was started at a point between King s and Greenway s ranches on Squirrel creek It burned north to Randall s ranch and south to Ripley & Wright s burning over several good ranges

Leadville News

The following items we take from the *Reveille* of the 27th inst

We can now say city without having to make any apologies

New buildings are springing up on every block all over the city

A good class of buildings is being extended far beyond the municipal limits

We now rejoice in an efficient water works and a competent fire department

Several of the fire hydrants were opened last evening and they gushed strongly

Several eastern detectives are in this city looking up fugitive crooks not Black Crooks

Fifteen hundred feet of hose five branch pipes twenty spanners and several trumpets are now at the disposal of the hose companies

Forty two passengers came in by Spotswood & McClellan s stages last evening from Webster and twenty four by Wall & Witter s coaches

The engine of the water works was moving smoothly yesterday and it caused fully a thousand barrels of water per hour to be pumped into the reservoir

There are three parties now in custody awaiting the action of the grand jury of Lake county which will investigate the charges of murder pending against them

A gentleman a few days offered to put the second story upon a new building if the owner would allow him the use of the upper portion for one year Rents are national banks in Leadville

In very many [illegible] over the city sidewalks a [illegible] appearance On Pine street in one place heavy hewed logs are being used and we call particular attention to them as they seem the fittest material for a substantial Leadville sidewalk,

On the upper part of Chestnut street we were horrified yesterday by the sight of a pair of hob nailed boots with the soles sticking uppermost in the mud We are confident that a human being is underneath and we hope the coroner will perform his melancholy duty of raising the corpse and sitting on him or [illegible] may be

The counterpart of the bottomless pit so often read to us in our bibles is located on Harrison avenue and a wagon or two may be seen stuck therein at any hour of the day We don t want to run this mud theme into the ground but then this cry of one teamster to another Say Bill won t you help me out ? is becoming so monotonous that the city ought to abate the nuisance

A gentleman who arrived in Denver on Monday from Leadville reported that the travel into our camp is immense and that between the starting point and Fairplay 141 teams and nearly 200 foot passengers were met Between Fairplay and McNassar s at the end of the track he met 57 teams and 172 persons on foot

Says the *Chronicle*

Business down at Malta is reported as being lively

Chicago lumber is in great demand in this market and now readily sells at $150 per thousand

Ten different vehicles left for Ten Mile this morning with freight and passengers

The registry list after yesterday s work, contains about twenty three hundred names
